# **POWER UP TOUR EUROPA 2024**

## **THE WORLD'S BIGGEST ROCK'N'ROLL BAND LIVE AT THE HOCKENHEIMRING ON 13TH JULY 2024**

This news should further increase the anticipation for AC/DC's upcoming 'POWER UP' European tour: the successful American rock band THE PRETTY RECKLESS has been confirmed as support and promises to fire up hundreds of thousands of fans during the eleven AC/DC Germany shows! The concert on 13th July 2024 at the Hockenheimring sold out within minutes.

Founded in 2009, the US rock band led by model and actress Taylor Momsen has long since written its own success story: Over half a billion streams, 2 million albums sold and a No. 1 ranking for their fourth and most recent studio album 'Death by Rock and Roll' in 6 different US chart lists - that's the more than respectable record of the New York alternative rockers. So it's no wonder that THE PRETTY RECKLESS are not only in demand with their fans, but also with fellow musicians - just last year they toured together with FOO FIGHTERS!

'POWER UP' will be the first AC/DC European tour in eight years and will see the legendary rock'n'roll band perform in some of the continent's biggest stadiums.
